Employalty: How to Ignite Commitment & Keep Top Talent in the New Age of Work

As workers everywhere quit, retire, or change jobs, do you really understand what leads ordinary people to become dedicated employees?

Joe dispels the pervasive myths that are hindering hiring and shares the 3 factors that determine whether someone will join your organization, stay long term, and commit to doing great work. Participants will leave with a simple yet powerful framework for turning organizations into destination workplaces that meet the needs and values of a changed workforce.

Andrew Lewis MTS, QMed, CMT

6:00AM HT

Diversity, Equity & Inclusion: Welcoming Human Differences

Few topics evoke more emotion than Diversity, Equity, and Inclusion (DEI). It is rare to find practitioners who aim to unpack the complexity in a non-political way focused on bridge-building at the core. This presentation will help your team bring clarity to terms and definitions commonly talked about and help you think about your workplace context: Is discrimination a problem for us? Where do the challenges lie for us concerning DEI in a rural setting? This brief but powerful session leaves room to discuss these and more thought-provoking questions as you consider your own DEI policies and infrastructure.

Richard Hadden MBA, CSP

Winning the Ongoing War for Talent

Finding, keeping, and winning the commitment of team members continues as one of the greatest challenges confronting healthcare employers. While everything that's been turned upside down struggles to right itself, the staffing crisis endures. Richard studies what today's workforce needs and how successful employers are responding. Learn what you're up against, and what you must do to build a sustainable workforce strategy to support the health of your patients and organization.

Getting Past Discontent

Whatever we call it, 'the Great Resignation, the Great Realization or the Big Quit'; what we know is that a record 50+ million employees quit their jobs last year in the U.S. There is also the increasing statistic on 'Quiet Quitting' in which nearly 20% of teams are actively disengaged, doing only the minimum required. What do they both have in common? This presentation will explore ways that today's leader can improve employee's engagement and creativity for the good of the staff, the patient, and the hospital.

Wednesday, May 3rd 5am - 9am HT

Robert Grossman

5:00AM HT

Creating Psychological Safety in Hospitals: Why It Matters

This presentation will explore why creating psychological safety in hospitals is vitally important. Discussing the intrapersonal, interpersonal, and organizational benefits of fostering a psychologically safe environment for patients and staff, you will learn how to initiate actions to take in order to create a culture where everyone's voices matter.

Michael Bayer MBA, CSP, AS

6:00AM HT

The Healing Power of Humor

What is humor? It is much deeper than the jokes and laughter we associate with the word humor. This presentation will give you a completely new understanding of humor and how to use it to promote healing and wellness.
